

WILLOUGHBY

2320 Series

Designed to minimize ligature points for behavioral healthcare environments.

(Infrared version shown)

Composed of Aquasurf® solid surface and stainless steel, the WBL-2320 offers an aesthetically-pleasing lavatory designed for in-patient psychiatric and behavioral health installations.

Stainless steel drain enclosure.

The 2320 series features a fully-welded, type 304 stainless steel drain trap enclosure.

Machined stainless steel components.

Willoughby's high-quality, long-lasting components are **not** chrome plated brass.

Aquasurf® durability.

Our sanitary solid surface lavatory is cast as a one-piece fixture that is easily cleaned, maintained, and repaired.

Great reasons to Count On Us.

The highest quality solid surface plumbing and stainless steel products, at a competitive price.

Get an exceptional customer experience by always having a skilled person available on the phone to resolve your issues or questions.
