

BUILT TO LAST, IN AMERICA

Water-saving device

WILLOUGHBY WUSC-2400

Shower Controller

Take control of inmate water usage. Willoughby's electronic shower controller can limit the flow time for each shower valve and the number of showers per hour saving maintenance time, water, and money. This stand-alone, non-networked unit is field adjustable—no PC required!

Maximum Control

Each shower controller can control up to four showers.

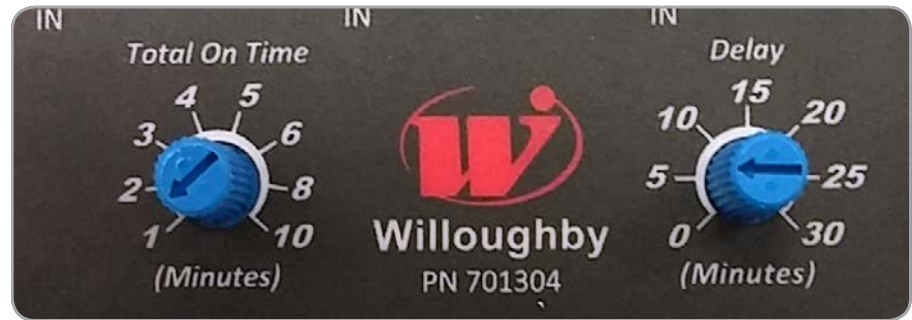

Restrict the Flow

Water and money going down the drain? Restrict the amount of water inmates can use with the turn of a knob.

Nuisance Usage Eliminated

Our device can also restrict the number of showers per hour for maximum control.

WILLOUGHBY

Shower control

- Each device can control up to 4 pushbuttons.

Reset

- Maintenance personnel can easily reset functionality from the chase.

Shower time control

- Limit run time from 1 to 10 minutes.

Delay between showers

- Choose the 0-30 minutes before the next shower can start.

Now we're even easier to specify:
