

Purposefully designed to dignify the patient and empower the hospital staff, we are redefining healthcare sanitation.

The Willoughby Patient Care Units represent an entirely new approach to high quality healthcare sanitation. In addition to a fully welded stainless steel cabinet, these premier bedside systems include:

- A non-porous, Aquasurf® solid surface integral lavatory bowl and countertop that is resistant to stains, burns, and impact.
- Solid polymer overlaid exterior including doors and panels with rounded edges.
- Low flow, stainless steel, siphon-jet toilet tested to support loads in excess of 2500 lbs.

For more details call **1.800.428.4065** or visit www.willoughby-ind.com.

WH-1700 SERIES

A true space maximizing unit, the very compact and versatile 1700 Series patient care unit is ideal for ICU/CCU rooms, or anywhere space is at a premium.

WH-1900 SERIES

Conveniently designed with stationary toilet. Pre-assembled with inside cabinet access to Flush Valve and Toilet Connections. Easily accessible front mounted Dialysis box option.

WH-2100 SERIES

With an array of modified lengths and ADA accessibility, the 2100 Series patient care unit is the most adaptable bedside unit on the market.

WH-2400 SERIES

An ADA and TAS compliant fixture, the highly durable 2400 Series is the only patient care unit in the industry with 42 inches of unobstructed access to the water closet.

WH-2600 SERIES

The 2600 Series is built with a circular front for a reduced footprint. With a hinged half round assembly, this patient care unit allows the fixed toilet to be enclosed or concealed.

WH-2800 SERIES

With a compact fixture width of only 28", the 2800 Series patient care unit will satisfy the demands of ICU/CCU settings.

Exceeding The Specification.

Aquasurf® Solid Surface Shower Bases

Stylish and durable, these pans provide the beauty of granite with a non-porous surface resistant to stains, burns, and impact. Aquasurf® solid surface shower pans are the perfect healthcare solution, which desire superior functionality at an affordable price. Zero transition, ADA shower pans are also available.

- Anti-slip surface
- Stainless steel trench cover
- Available in 30" x 60" roll-in or 36" x 36" transfer receptors.
- Optional solid surface wall kit is also available

Aquasurf® solid surface is a molded cast polymer, densified material, which is composed of polyester/acrylic resin, UV stabilizer and aluminum trihydrate, mineral fillers, and proprietary colorant. Damage to the surface of this product is very rare and can be easily repaired with a mild abrasive cleaner.
