Willoughby Industries - Security Products

Front Access Handicap Cabinet Shower

Recommended Specifications

Front Access Handicap Cabinet Shower shall be: Willoughby Model No.___S- 3636-HC-FA (Select from model number and options list on next page)

Shower cabinet shall be fabricated from 14 gauge, Type 304 stainless steel. Shower floor shall be fabricated from 11 gauge, Type 304 stainless steel. The construction shall be *all-welded* (unitized models only, not applicable to knockdown models), exposed stainless surfaces polished to a #4 satin finish, except shower floor which shall have a non-slip glass blast finish.

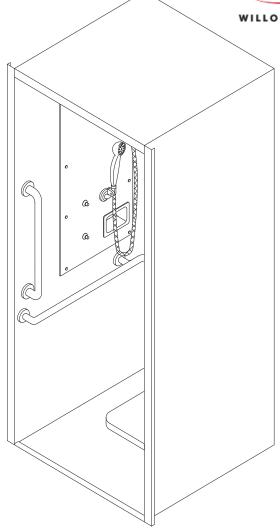

Standard equipment shall include:

© Rev. 8/2017

- (ICD) Inside caulk drain (2") with removable strainer
- (GB3318) 18" x 33" Horizontally-mounted L-shaped grab bar
- (GB24V) 24" Vertically-mounted grab bar
- (FSS) Fold-up stainless steel shower seat

Unit requires no chase area for installation and maintenance. Shower valve and shower head shall be mounted on removable access panel secured with security screws.

Underside of shower floor shall be sound deadened with fire resistant material.

Please provide shower finish schedule upon ordering.

(Unit may be shown with optional features)

To specify fixture and accessories, use the Model Number and Options page.

Example: To specify a unitized 36" x 36" Front Access Handicap Cabinet Shower with left hand shower head/push button/valving, polished front, single temp, pneumatic metering valves, standard pneumatic push buttons, 2.5 GPM flow rate, non-adjustable penal shower head and hand held Flexshower, standard inside caulk drain, and recessed mounted soap dish

Use the following Willoughby Model Number:
US-3636-HC-FA-L-B3-PML1-MA2-PPB-2.5GPM-NPS-FX-ICD-RD

Unit requires 2" recess in floor.

Fixture shall be free-standing, no anchoring required.

To specify Knockdown Cabinet Shower: Select the "KS" model number from the list on the Model Number and Options page.

MADE IN THE U.S.A.
