Willoughby Industries - Commercial Ware

WAF-5406/5408 **AquaFount**[®] Six / Eight Station **Full Round** 54" Solid Surface **Deep Bowl Washfountain**

(Unit may be shown with optional features)

To specify fixture and accessories, use the Model Number and Options page.

Example: To specify an eight station full round 36" AquaFount® washfountain with standard floor mounting (34" rim height), hard-wired infrared sensors, standard water supply from below, in Sandstone color Use the following Willoughby Model Number: WAF-5408-FLR-IR-SB-SS

Recommended Specifications

AquaFount® Full Round, 54" Solid Surface Washfountain shall be: Willoughby Model No. WAF-540 (select from model number and options list on next page)

AquaFount® washfountain shall accommodate from 1 to 6 users simultaneously for the 6 station and 1 to 8 users simultaneously for the 8 station. The washfountain bowl and cover are constructed of Aguasurf® molded cast polymer densified solid surface material composed of polyester/acrylic resin, UV stabilizer, aluminum trihydrate and mineral fillers. The preassembled water distribution heads and pedestal base shall be constructed of heavy gauge, type 304 stainless steel. Exposed stainless steel surfaces shall be polished to a #4 satin finish.

Push buttons and water spray nozzles shall be constructed of type 303 stainless steel. The drain grate shall be constructed of heavy gauge stainless steel. The pre-assembled sprayhead module shall be equipped with independent spray nozzles controlled by separate push buttons or infrared sensors. Flow restrictors shall maintain flow rates at 0.5 GPM per station.

AquaFount® washfountains shall be supplied with thermostatic mixing valves, integral checkstops, drain spuds, flexible supply hoses, control valves, color coded water lines, and Class II 120/24 VAC plug-in transformers (as needed)*. Operating supply water pressure range is 25-80 PSI.

Vandal resistance:

The spray nozzles, push buttons, infrared sensors, and escutcheons are secured to the unit from within the head kit. Valves, water supplies, and waste connections are concealed within the pedestal. Removable access panels are secured with vandal-resistant security Torx screws. The Aquasurf® solid surface material is resistant to stains, impact and burns. Surface damage can be easily repaired with everyday cleansers and/or fine grit abrasives.

ADA, TAS, and ANSI Compliant:

At the standard 34" adult rim height, all stations are designed to comply with all applicable ADA, TAS, and ANSI Z124.3 and Z124.6 accessibility guidelines. This excludes Floor Mounted Foot Operated (FO) models.

Optional Features:

AquaFount[®] washfountains offer liquid soap dispensers as optional accessories. AquaFount® washfountains can be ordered with 31" rim heights for juvenile use (JR).

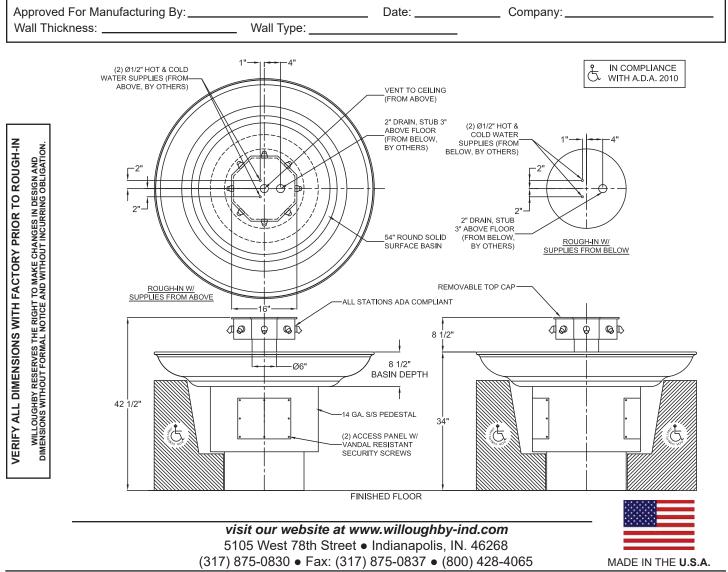

* Note: Plug-in transformer must be used with a ground fault interrupter (GFCI) receptacle to prevent possible electrical shock.
